

regulation of translation

Sig. (10% FDR) not sig. sig. Feature of Interest FALSE *

regulation of translation

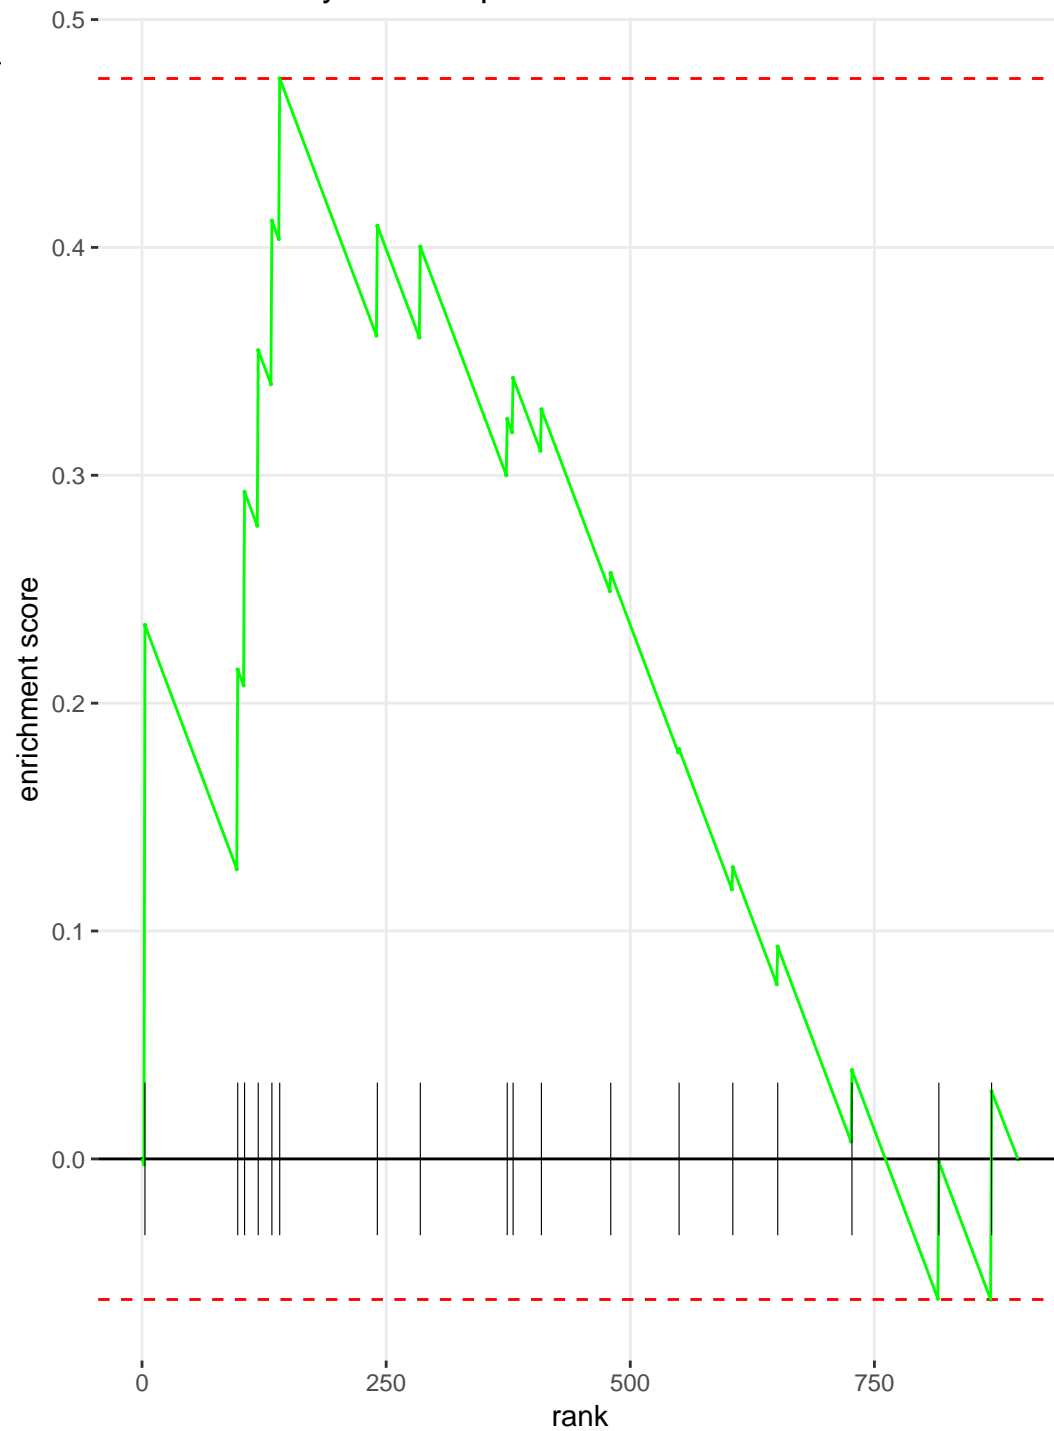

tRNA aminoacylation for protein translation

Sig. (10% FDR) not sig. sig. Feature of Interest FALSE *

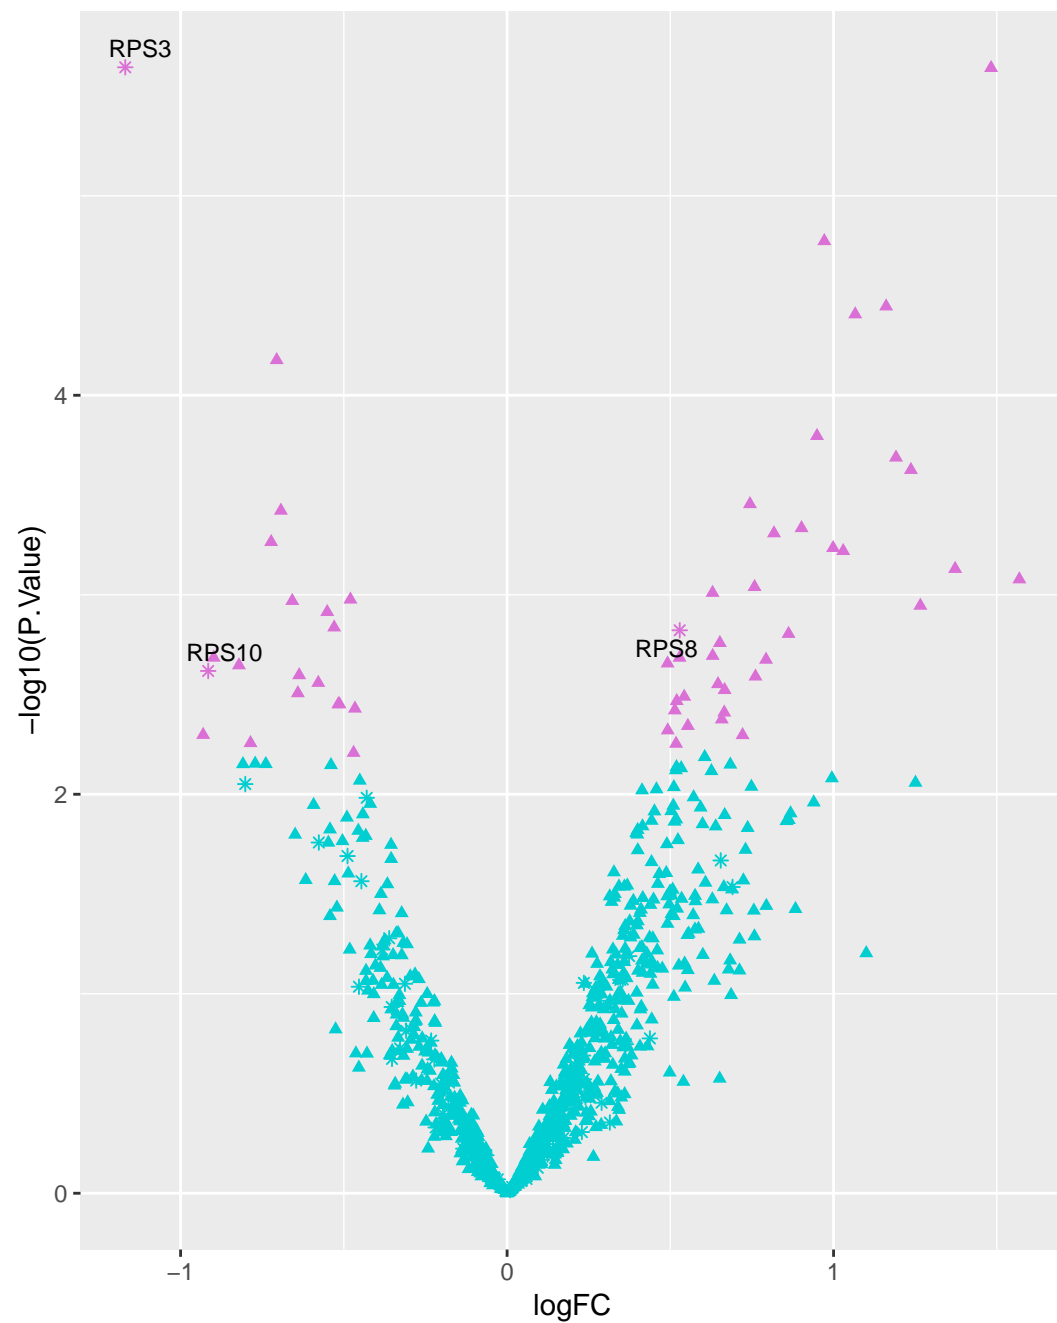

tRNA aminoacylation for protein translation

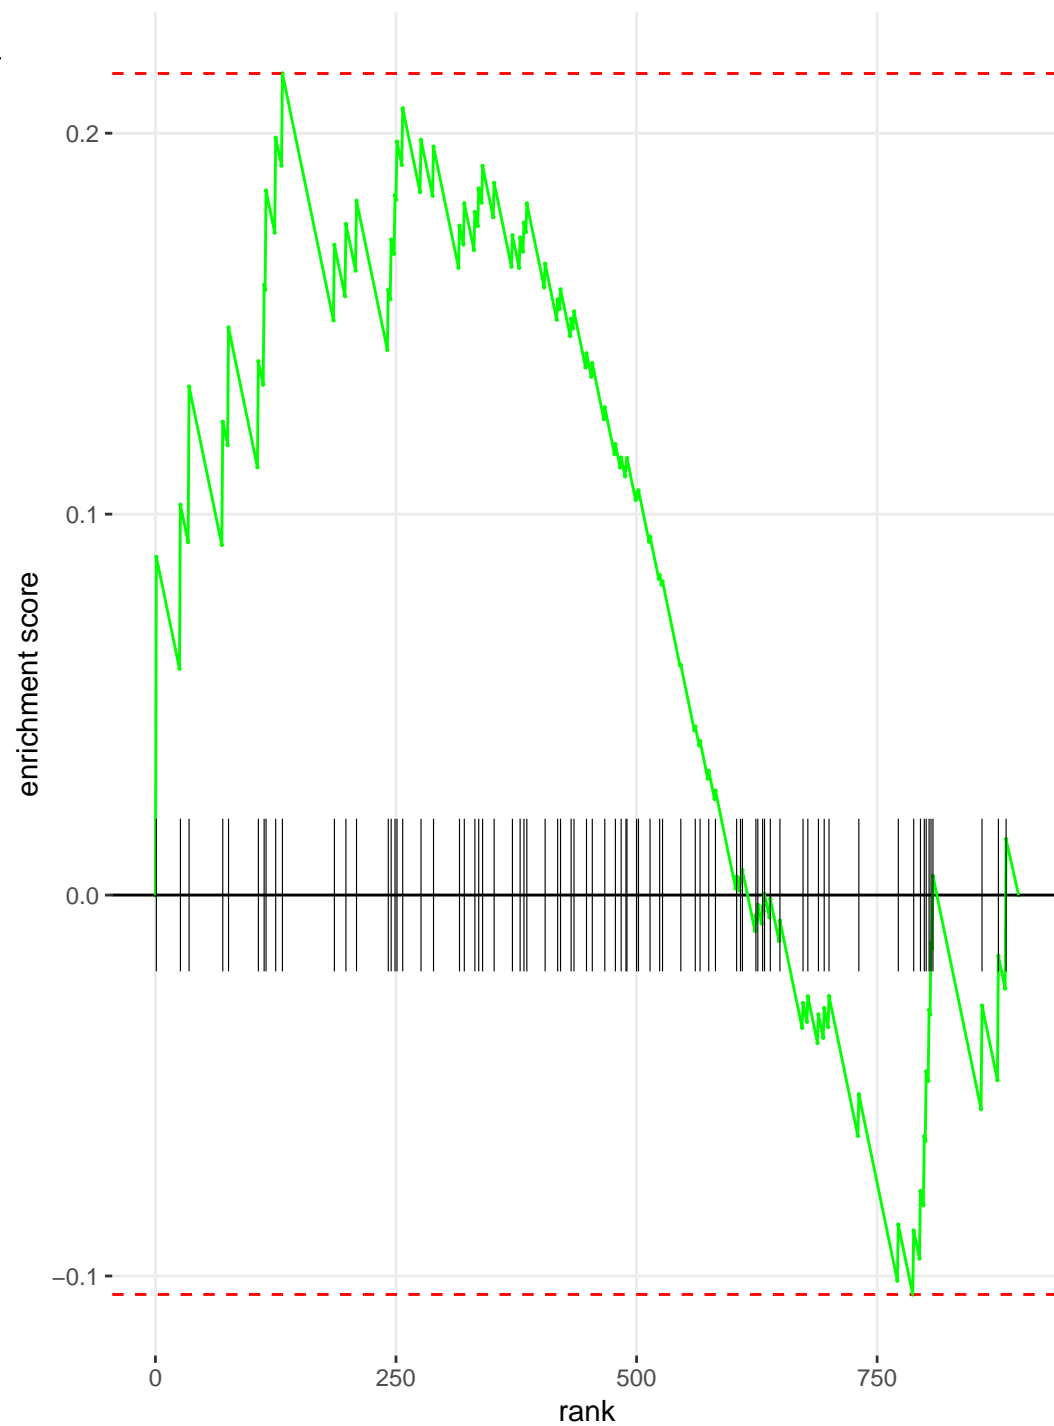

structural constituent of ribosome

Sig. (10% FDR) not sig. sig. Feature of Interest FALSE *

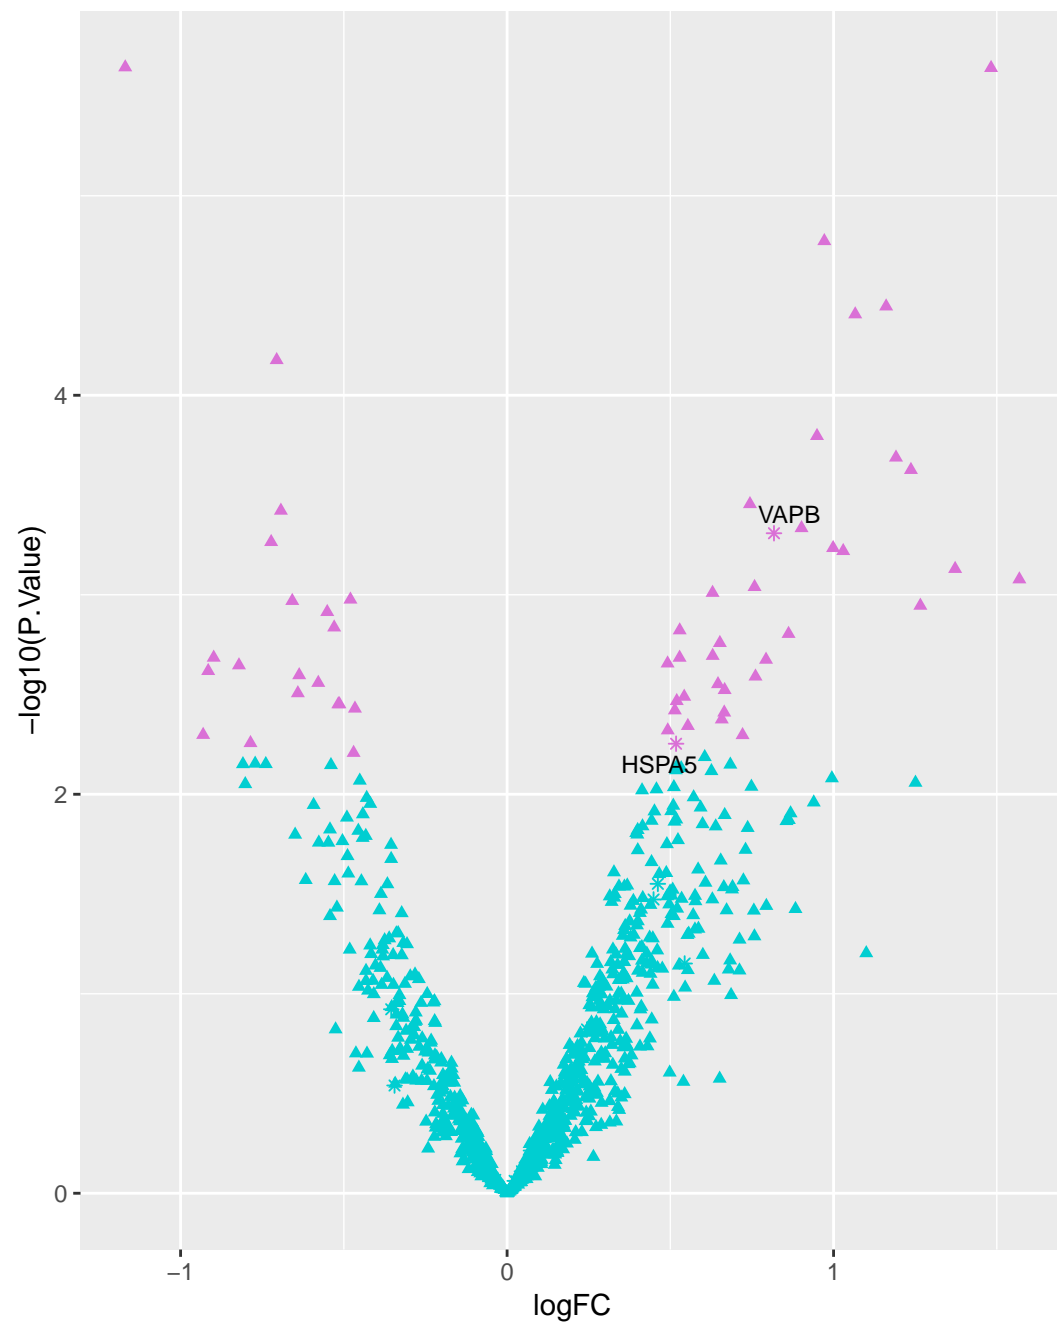

structural constituent of ribosome

endoplasmic reticulum unfolded protein response

Sig. (10% FDR) not sig. sig. Feature of Interest FALSE *

endoplasmic reticulum unfolded protein response
